

2nd July 2015

Testimonial

My company was faced with the difficult situation of registering a suitable brand name for our food brand being planned for in the near future. All these years we were using the services of a trademark registrant however I never used to get personalised service. I found in Judith George IP Attorneys, the quality of personalised approach, giving more than what you ask for and speedy service at the lowest of charges. Judith has done my word mark registration as well as the logo registration at a very minimal cost to Mariba Techno Ventures. I can confidently recommend her to any business house that needs Trademark registration of any nature of business and you can expect professional services from her.

A handwritten signature in black ink, appearing to read 'Joe Bastian'.
